Memo to File:

Re: Dime #1 Claims Mine
DOE/015/004
Jack Watterson Mining
Emery County, Utah

On November 17, 1977, Jim Smith and Brian Buck inspected this new mine on claims owned and drilled by Tri State Minerals* & Exploration. The operator is Jack Watterson Mining. Mr. Watterson spoke with Brian and said that less than one (1) acre would be disturbed and that he would file a DOE on the mine. The site was photographed and was about one (1) acre in size and generally well kept. A number of unplugged drill holes were noted.
